## Work Experience

### Bachoo Design Studio — Interaction Designer

MAR 2019–AUG 2019, KYIV

- [BanQi android app](#) — Worked in UI/UX designer role with the USA team, on the bank app designed specifically for the Brazilian market and its 50 million people who are not served by traditional banking establishments.
- [keanet.eu](#) — I've done website redesign, from high fidelity wireframes to UI part and mobile version, for an international policy design research center based in Belgium and specialized in culture and creative industries as well as sport, education and youth.

### Hexagon Agency — Interaction Designer

JUN 2018–MAR 2019, KYIV

In addition to the main Product Designer responsibility's, I participate in organization of the team's work, and assignment of tasks, estimate deadlines, regulating design processes, doing quality control, guiding and helping to colleagues.

- Worked in active collaboration with **Velmart** supermarket chain and designed from sketch to project implementation [Pick&Go](#) app for scanning goods' barcodes by yourself while you shopping and paying without lines at the cash desks.
- Worked in intense collaboration with clients and developers and designed [Kasko2Go](#) car insurance app that allows you to pay only for driving kilometers.
- Other big NDA projects for EU client.

### Applikey Solutions — UI/UX Designer

AUG 2016–MAR 2018, KHARKIV

- Designed with close collaboration with client the [Wunderbody](#) — ultimate app for training coach, exercises, workouts, healthy meals & recipes, and active lifestyle.
- Designed mobile and tablet [ARRI Dailies Player app](#) — video player, with lots of filtering and sorting options, for Arri Webgate cloud service, tailored to the needs of professional filmmakers.
- Redesigned [Stylu app](#) for Canada's leading on-demand beauty service that sends professional hairstylists and makeup artists directly to the doorstep.

### Brander — UI Designer

JAN 2015–AUG 2016, KHARKIV

I worked mostly as UI Designer in collaboration with UX Designer, participated in UX researches, prototyped testings and assisted in user surveys. I designed such projects:

- [Parklane.ua](#) — desktop and mobile website for Kyiv based real estate agency.
- [Yaposhka.kh.ua](#) — desktop and mobile website for restaurant and food delivery service in Kharkiv.
- [Finhub.ua](#) — desktop and mobile website for microcredit service.

## Achievements
